

## Oracle PL/SQL for DBAs

By Steven Feuerstein, Arup Nanda

O'Reilly Media, Inc, USA. Paperback. Book Condition: new. BRAND NEW, Oracle PL/SQL for DBAs, Steven Feuerstein, Arup Nanda, PL/SQL, Oracle's powerful procedural language, has been the cornerstone of Oracle application development for nearly 15 years. Although primarily a tool for developers, PL/SQL has also become an essential tool for database administration, as DBAs take increasing responsibility for site performance and as the lines between developers and DBAs blur. Until now, there has not been a book focused squarely on the language topics of special concern to DBAs Oracle PL/SQL for DBAs fills the gap. Covering the latest Oracle version, Oracle Database 10g Release 2 and packed with code and usage examples, it contains: \* A quick tour of the PL/SQL language, providing enough basic information about language fundamentals to get DBAs up and running \* Extensive coverage of security topics for DBAs: Encryption (including both traditional methods and Oracle's new Transparent Data Encryption, TDE); Row-Level Security (RLS), Fine-Grained Auditing (FGA); and random value generation \* Methods for DBAs to improve query and database performance with cursors and table functions \* Coverage of Oracle scheduling, which allows jobs such as database monitoring and statistics gathering to be scheduled for regular execution...

### Reviews

*This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Prof. Valentin Hane MD

*The book is fantastic and great. I have got read through and i am confident that i will planning to read yet again once again in the foreseeable future. I found out this book from my dad and i recommended this publication to discover.*
