

Children and Pensions (Hardback)

Filesize: 3.05 MB

Reviews

It is just one of the most popular ebooks. It is written in simple words and not confusing. I am just happy to tell you that this is actually the finest ebook I have ever read in my very own existence and may be the greatest ebook for any time.

CHILDREN AND PENSIONS (HARDBACK)

DOWNLOAD

MIT Press Ltd, United States, 2007. Hardback. Book Condition: New. 232 x 160 mm. Language: English . Brand New Book. The rapidly aging populations of many developed countries--most notably Japan and member countries of the European Union--present obvious problems for the public pension plans of these countries. Not only will there be disproportionately fewer workers making pension contributions than there are retirees drawing pension benefits, but the youth-to-age imbalance would significantly affect the total contributive capacity of future generations and hence their total income growth. In *Children and Pensions*, Alessandro Cigno and Martin Werding examine the way pension policy and child-related benefits affect fertility behavior and productivity growth. They present theoretical arguments to the effect that public pension coverage as such will reduce aggregate fertility and may raise aggregate household savings. They argue further that public pensions, as they are currently designed, discourage parents from private human capital investment in their children to improve the children's future earning capacity. After an overview of pension and child benefit policies (focusing on the European Union, Japan, and the United States), the authors offer an empirical and theoretical analysis and a simulation of the effects of the policies under discussion. Their policy proposals to address declines in fertility and productivity growth include the innovative suggestion that relates a person's pension entitlements to his or her number of children and the children's earning ability--proposing that, in effect, a person's pension could be financed in part or in full by the pensioner's own children. Alessandro Cigno is Professor of Economics at the University of Florence and coauthor of *The Economics of Child Labor*. Martin Werding is Head of the Department of Social Policy and Labor Markets at the Ifo Institute for Economic Research and the editor of *Structural Unemployment in...*
