SURVIVAL FOR HOMELESS PEOPLE AND AFTER CATASTROPHES (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book ***** Print on Demand *****.The hardest part about surviving, is fear of the unknown. This book is intended to help you do that. Military and civilian survival courses start by charting a path into the unknown. This is useful. Knowledge and experience can calm anyone facing a crisis. A range of people fall into the ranks of the homeless, with variation in resource access. There is a very simple, though not easy solution to homelessness: build affordable housing. The government has allowed housing costs to get way beyond what they should be. When my father got his first apartment, being married, in 1958, he paid 15 of his income for rent. Nowadays, people pay more than 30 , and some, over 50 , which is ridiculous. While we wait for politicians to wake up, which may take forever, homeless people have to survive, somehow. If cities had the lockable sleeping booths that Japanese train stations have, with space enough to sleep and keep a duffel bag, that would help greatly. Few people plan to end up homeless. Yet even some middle-class folks have had to deal with it. A number of celebrities had periods of homelessness. Homelessness has affected a broad range of society. It also generates a subconscious fear, which can drive compulsive behavior. This book assumes the reader is without regular lodging, in a city or town. Wilderness survival is very different from urban survival. Perspective is everything. A major catastrophe for one person can be an adventure for another. Most homeless people seem to be on what Joseph Campbell called the Hero s Journey. Read at least the Wikipedia notes on that, so you have meaning for your life....
