National Academies Press. Paperback. Book Condition: new. BRAND NEW, Strategy for the Detection and Study of Other Planetary Systems and Extrasolar Planetary Materials: 1990-2000, Committee on Planetary and Lunar Exploration, Space Studies Board, Division on Engineering and Physical Sciences, National Research Council, This volume addresses a new opportunity in the planetary sciences - to extend our exploration outward to discover and study planetary systems that may have formed or are forming around other stars. It concludes that a coordinated program of astronomical observation, laboratory research, theoretical development, and understanding of the dynamics and origins of whatever may be found would be a technologically feasible and potentially richly rewarding extension of the study of bodies within the solar system.
